Aero Toy Store Goes Supersonic

PR NEWSWIRE

Posted: 2008-03-18 12:29:30

FORT LAUDERDALE, Fla., March 18 /PRNewswire/ -- AERO TOY STORE, the world's most distinctive aviation brand, has been appointed the Factory Authorized Representative of AERION CORPORATION for the sale of the company's SUPERSONIC Business Jet. Principle agreements have been reached for the sale of 12 new aircraft by AERO TOY STORE. The SUPERSONIC Business Jet will afford individuals the ability to cruise at sustained supersonic speeds of up to Mach 1.6 and at altitudes of up to 51,000 feet with a range of 4,000 nautical miles.

With advanced aeronautical engineering, AERION's SUPERSONIC Business Jet will take corporate travel to new heights. For example, passengers will be able to fly from Paris to New York in four-hours-fourteen-minutes, and from Dubai to New York in little more than nine-and-a-half hours (eliminating a fourteen-and-a-half hour flying day for passengers and crew), greatly reducing travel time and increasing overall business travel efficiency.

"Interest from our customers in this new generation private jet already has been extremely strong and we've only just begun to introduce this revolutionary aircraft to a fragment of the market," said AERO TOY STORE Chief Executive Officer Morris Shirazi. "It is my belief the SUPERSONIC Business Jet is poised to become the new standard for corporate executive and private individual travel across the global arena."

AERO TOY STORE has been providing clients with turnkey solutions for the sale and purchase, financing, modifying and enhancement of new and pre-owned aircraft since 1993. The company maintains full-service fixed base operations and sales centers in Fort Lauderdale, Florida, and Montreal, Quebec, as well as a sales facility at McCarran International Airport in Las Vegas, Nevada. AERO TOY STORE's extensive inventory focuses on luxurious wide cabin, long range aircraft, including Challenger, Falcon, Gulfstream, Global Express and Boeing. The company also owns and offers a variety of light and mid-sized aircraft, such as the Citation, Hawker and Lear, in addition to an extensive helicopter fleet, which includes the most highly-refined and latest model rotary aircraft.

AERO TOY STORE has established a longstanding business relationship with preeminent helicopter manufacturer AGUSTAWESTLAND that has resulted in one of the world's largest available inventories of AGUSTAWESTLAND rotary aircraft, including the AW139, Agusta Grand and AW119KE helicopters, and the highly anticipated AERO TOY STORE exclusive Pininfarina Edition AW139. The AGUSTA products complement a fleet that also features Bell 429s, Bell 407s and the soon to be released BA609.

As the exclusive provider of Pininfarina Edition aircraft, styled and handcrafted by experienced artisans, AERO TOY STORE delivers the ultimate flying experience. Pininfarina designs have brought flawless beauty and comfort to such classic motorcars as Ferrari and Maserati. Now the company's streamlined, luxurious designs can be experienced in exclusive customized aircraft from AERO TOY STORE.
